SkyFlyer Hanging Structures —
Lightweight Fabric Exhibit Systems

SkyFlyer Hanging Structures: Big Look, Big Value

Bring your brand to new heights for less! SkyFlyer hanging structures are a basic version of Skyline Fabric Structures. This new family of simple, standard hanging structures are made with Skyline quality and feature genuine Skyline graphics.

Quick, Intuitive Installation

Sturdy 2" diameter U.S.-made aluminum frames are lightweight and sturdy. Push-button connection system allows for quick and easy installation without tools.

Custom Shapes Available, Standard Shapes Rentable

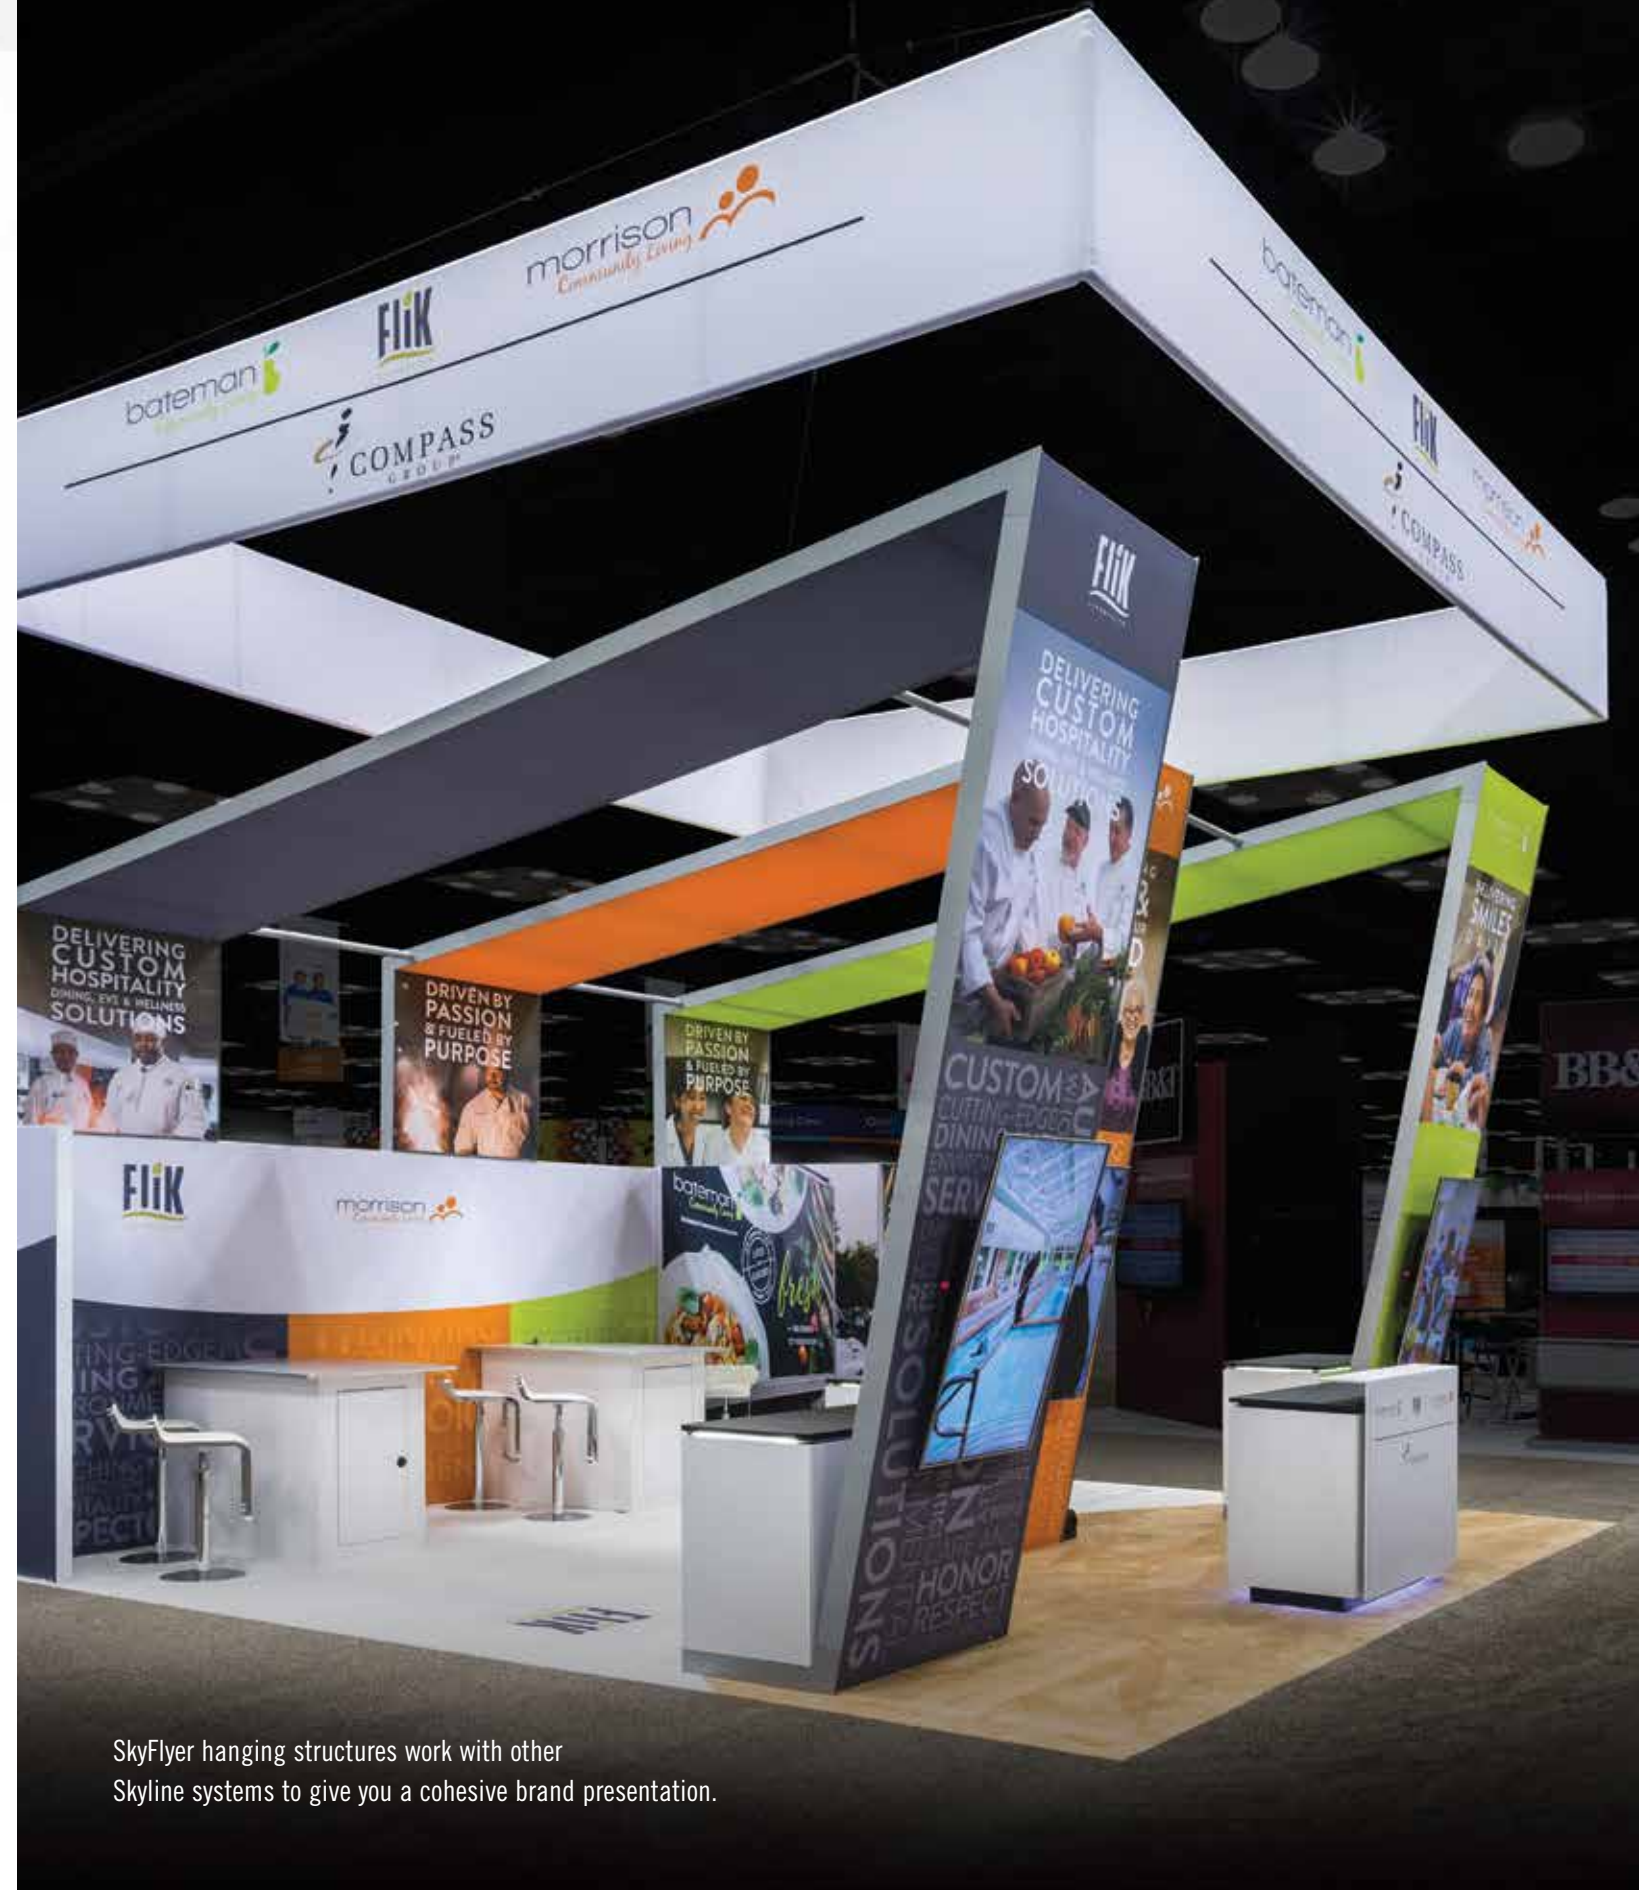

Custom and variable-size standard shapes are available to fit your brand and create impact above the trade show floor. Standard frames are available for rent.

Quality Skyline Graphics

Skyline produces SkyFlyer fabric graphics in-house for the very best color and fit. Skyline uses computer-controlled patterning and woven fabric, which helps lessen shadowing from internal tubes or graphic. Optional inner liner is available to increase fabric opacity.

Skyline pillow-case style fabric covers also install with ease.

SkyFlyer hanging structures work with other Skyline systems to give you a cohesive brand presentation.

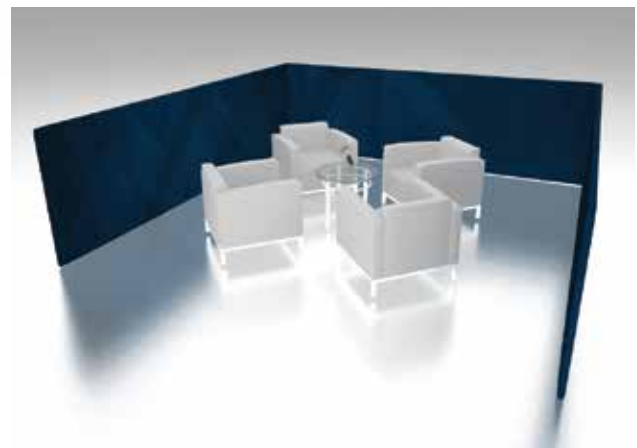

SkyFlyer Hanging Structures: Big Look, Big Value

SkyFlyer Hanging Structures

- Sturdy 2" (5 cm) diameter aluminum frames
- Installs quickly and easily without tools
- Pillowcase-style fabric cover installs with ease
