SkyRise™ Exhibit System –
Sturdy, Flexible Wall System

Skyline
HELPING THE WORLD TRADE

Sturdy, Flexible Wall System

What makes this product unique? Ease of use, speed of set up and flexibility. Structural SkyRise allows you to build big and a tool-less cam lock connection makes installation quick and easy. Modular SkyRise components are reconfigurable to adapt to changing needs or booth spaces.

Custom Modular Flexibility

SkyRise is compatible with other Skyline modular systems to give you versatility in design. Get the look that fits your brand and the option to change your exhibit design to accommodate varying spaces.

Architectural Impact

Build large walls and enclosures to add the functionality that's right for you. SkyRise supports integrated cabinets, monitor mounts, backlighting, shelving and more to provide a cohesive look.

Conference Rooms

Conduct business in private or semi-private spaces. SkyRise is great for conference rooms of all styles and sizes. Optional frosted window panels allow for light while maintaining a degree of privacy. The ease of SkyRise reduces labor costs — a 10' (3 m) conference room can be installed in 30 minutes without tools.

EXPERIENCE MATTERS

TOP Aces USA

WWW.TOPACES-USA.COM

Customize your SkyRise™ structure with brilliant and durable Skyline fabric graphics.

"We've been extremely happy with the new exhibit. The overall results exceeded our projections and expectations." — *Horn USA, Inc.*

Durable, Lightweight Frame

SkyRise™ has 3" (7.6 cm) deep anodized aluminum frames with welded corners to provide incredible strength and durability, yet is lighter weight than most competitive systems.

Surface Treatments

Choose from branded fabric graphics, frosted windows or semi-rigid panels that have a durable scratch and impact resistant finish. All are fire resistance rated. Panels can be changed in seconds without disassembling frames.

Frame sizes: 2' x 4', 4' x 4', 2' x 8' and 4' x 8'

Securable Storage Areas

Storage areas are invaluable for most exhibitors. Strategically placed within a well-designed exhibit, they help staffers function by making certain items accessible and valuables securely stowed. SkyRise storage closets, cabinets and conference rooms have optional lockable wooden doors.

Versatile and Functional

Build Big With SkyRise
Specifically designed for larger, taller exhibits, SkyRise is sturdy, clean and modern looking. Panels allow for technology integration, which are extremely beneficial for island and peninsula exhibits.

Reconfigurable
One exhibit gives you many looks to meet your changing needs. Reuse frame, panels and accessories in different configurations from show to show to fit your ever changing exhibit needs.

Merchandising
SkyRise shelves and counters integrate seamlessly for a professional look and brand presentation. Sturdy shelves support many kinds of products.

Backlit Graphics
Backlit graphics bring attention to messaging or products. Backlight sections up to 4' x 8' (1.2 x 2.4 m) can be lit with energy efficient LED lights.

Integrated Technology
Perfect for presentations. SkyRise supports flat-screens and hides connections with easy access wire management.

Cases & Crates
Larger SkyRise exhibits fit easily in specially fitted crates designed to save time on installation and dismantle.

Custom Rental Solutions
SkyRise components including frames, accessory brackets, frosted and rigid standard color panels are available for rent.

Light Boxes
Expand backlighting over multiple SkyRise frames to make a 3D light box! Light boxes can be built as high as 16' (4.9 m) to create a powerful presence.
